**STEPS TO LOGIN TO TD AMERITRADE'S THINKORSWIM®:**

1. Install the desktop simulator trading software, ***thinkDesktop***, by clicking the following link: http://mediaserver.thinkorswim.com/installer/install.html

   Select the applicable OS and install the software

2. Go to https://www.tdameritradeu.com/tdau/public/register.tdau?tradingDrillCode=Fe511Fall2016Sigma56 and follow all steps to register for the training by clicking ***register***.

   Or, you can go directly to https://www.tdameritradeu.com/tdau/public/register.tdau to register, and have them enter code: Fe511Fall2016Sigma56

   Please record your *username* and *password* you select during registration, this is the same login you will need for both the desktop application (where you will make trades) and the web-based gui (where you can track your performance against your peers).

   After registering for the game, you will receive an email from support@tdameritradeu.com

3. In order to login to the ***thinkDesktop®*** trading simulator program, double click onto the short-cut that should have been created on your desktop:

   You will then be prompted with the following (make sure the tab is toggled the right and "Paper Money" is highlighted):

****

Enter in the username and password selected, HOWEVER, you must append your username with @tos. For example, if your username is *stevensrocks*, you will enter your username as *stevensrocks@tos*

****

You do NOT require the @tos to log into the web based application:

https://www.tdameritradeu.com/tdau/public/displayLogin.tdau

You are now logged into TD Ameritrade's thinkorswim® trading simulator - Happy trading!
